WRAPPED WITH WIRE

Dr. Fuller has a Midnight Experience at Maize.

Dr. Fuller of the West Side had an experience night before last with a barb-wire fence at Maize which he will not forget the longest day he may live. He had been called to see a patient in consultation with Dr. Walker of Colwich and was returning home through Maize. Just north of the seminary the horse started on a plain angling road in a fast trot. It seems that some one had fenced up the road and had left no warning. The horse ran into the wire fence throwing the doctor to the ground and wrapping the barbed wire about his body. The horse was held fast by the wire and was badly cut. In the fall the doctor had dropped his lines and his head was held fast between the wires' hind legs. The wire cutting the animal's legs began to get so bad that the only thing the doctor could do was to catch the animal by the hind legs and go with her.

Finally the mare extricated herself from the wire but the doctor was still bound. He was bleeding profusely and so was the horse. He was afraid to call for help for fear that the horse would start to run, but finally he gave two yells that fairly raised the town. The first man to arrive was a preacher, and by the light of the lantern he saw the doctor covered with blood and supposed his head was mashed and began to pray that the Lord might have mercy on the soul of the poor man. Before the preacher was done praying the village blacksmith appeared on the scene and when he saw the bleeding animal and the man he did not stop to pray, but began to cut a blue streak about men who would put a barbed wire fence across a road and give no warning.

Dr. Fuller told them that if they would stop praying and cussing long enough to render him a little assistance that he would be under a debt of gratitude and in a little while he was extricated from his perilous position. He was a sad looking aspect. There was not a stitch of clothing on him but what was torn to shreds and covered with blood. After he was washed he was surprised to find that outside of black eyes and several severe scratches he had escaped with but little injury and that the blood was principally from the horse.

LABOR DAY RACING

Some Spectacular Events are Expected at the Gentlemen's Driving Park.

The Labor day (Monday, Sept. 7) races given by the Gentlemen's Driving Park are sure to be fast and furious. The entries are splendid and the contests will be long and exciting. In the 230 trot or pace are John Sturgis's Jim Corbett; John Sturgis's Maud S; Amos Sile's Hazel B; Grant Connor's Truby May; Frank Russell's Unnamed; George Chapman's John McCallough; and Frank Vennum's Decker.

Everybody who was at the last races will remember what a race Maud S and Truby May put up; well, they are entered again. This in itself is enough to crowd the park. But it is not all. There are two or three new ones entered that promise to make such a horse race as the Wichita public has not seen for many a day. Monday will be a holiday and everybody will be there.

But this is not all. There will be a race by thoroughbreds with the riders in colors and all the old-timers who used to flock to the course to see Mollie McCarty and Ten Brock and old Lexington will be the fastest running that has been seen here for many a day. They are: Dr. S. S. Hazard's Goldbug; F. Little Creek; Mr. Carson's John; R. E. Keis's Inyincible; and S. E. Fallow's Ad-dora. There will be lots of sport besides this. There will be something of interest to everybody. Look in Sunday morning's Eagle for further details.

Those who will drive over and everybody else will come via Riverside street car and the ferry. Come in time by all means.

ENTRIES FOR THE STATE FAIR POUR IN BY EVERY MAIL

There will be Exhibitions of Farm Machinery Never Before Seen by Visitors—Some of the Largest Implement Houses in the Country Have Not Only Signified Their Intention of Making Displays, But Have Contributed to the Special List—Big Attractions, Exciting Races and Every Day the Best.

Entries are being made by each mail and they are good ones. Since changing the condition of only 5 per cent to start there is no doubt but what in the green horse classes there will be some double deck flocks to go under the wire. These races are the two-year-old pace and trot, the three minute classes. On there will be some fun this year, is what Assistant Secretary Dorsey says. He has been attending to the correspondence with the horsemen and has a good idea of the stables that are headed this way, and each year has brought out its kickers on account of there being no running races, and this year there will be some good ones and the word of approval that is heard from all directions is gratifying indeed to the fair people.

Special effort is being made and with the best of success to secure able judges for the several departments. Experienced exhibitors will not go to a fair unless there is an assurance that when they go in the show ring that merits will count, and therefore none but competent men for judging must be secured, and the Kansas state fair this year will be up to date in this matter. In a few days they will be able to name the men who will say blue ribbon for this and red for that, and be able to show the exhibitors the reason why if they should not be quite satisfied.

The secretary speaks in the most reassuring way of the financial success. He says that there are more applications for space for privileges for the sale of specialties than ever before since the state fair has been located at Wichita, and the reason for this is that so many are coming that these men know what can be made where there is a big crowd.

Secretary Smith has been at Springfield, Mo., and at the Nebraska state fair at Omaha this week and he reports that he has the promise of several good needs of cattle and hogs that have never shown in Kansas, but thinks that as our people has the corn, and corn is what gets the cattle and hogs, that they may be able to sell some of their stock to Kansas farmers, and the new ideas in machinery will make a man wonder what under the sun will be the next improvements. A large irrigation establishment was here especially to secure suitable accommodations to show their large line of improved well machinery, and said they were making up a special fine for show at Wichita, and so they go. The list of specialties that is being handled in will be an eye opener when published. Firmly in the city are having machinery for the Kansas state fair show new implements to give away for premiums which will be well worth while for any man to compete for.

The work at the grounds is being pushed to a finish and in a few days the grounds will look like a city of itself. There is nothing but approval heard in the matter of family tickets. There seems to be some who do not understand just what the reduction is, and a word on the subject will not be amiss. The family rate made is for four or more of the same family headed by either father or mother or both. The rate is 25 cents each, but for less than four the old rate will stand. There may be some who will try to evade the rule but the plan of tickets will prevent any injustice being done.

There may be some who want to and have not contributed to the special premium list. They will please do so at once as the list should be published as soon as possible so as to give all who will compete a fair chance to get their exhibits in fair shape. Let all keep up the interest so far shown and the Kansas state fair week of 1896 will long be remembered by the merchants and citizens of Wichita as a red letter event in the history of our city.

RECEPTION TO DR. TODD

Unitarian Ladies Do Honor to a Visiting Minister of Their Church.

Last evening at the home of Mrs. L. S. Carter in the Sedgewick ladies of the Unitarian church gave a reception in honor of the Rev. Mr. Todd of Kansas City, formerly of Topeka.

The spacious and beautiful rooms, which were filled with electric light, were all of whom enjoyed themselves very much.

Some two hundred ladies and gentlemen were present, including many young people. It was a cultured audience and hence the hours were spent not only pleasantly but profitably, for the range of conversation covered mostly every topic.

Mr. Todd was introduced to every guest and exchanged a few words with each in a manner that evidenced his versatility. He is a bright and intellectual gentleman and is said to be the ablest Unitarian minister in the state. He will preach during September for the Unitarians of this city and may consent to become their permanent pastor.

The ladies served some very delicious refreshments and served them with bountiful hands.

After 10 o'clock an adjournment was taken to the Sedgewick Music Hall, where an informal dance was given. This was a feature that enhanced the pleasure and sociability of the evening.

Mrs. Todd did not accompany her husband, having been unavoidably detained at home.

DEAN BAKE AT CHENEY

Old Soldiers of That Place are Preparing for a Big Time.

Rankin Post G. A. R. of Cheney are preparing to give an old fashioned bean bake and soldiers' reunion on October 8, 1896. Bitter announcing a full program will be out in due time. The meeting will be held in a beautiful grove on the Niangua river one mile east of Cheney.

MERIT

Is what gives Hood's Sarsaparilla its great popularity, increasing sales and wonderful cures.

The combination, proportion and process in preparing Hood's Sarsaparilla are unknown to other medicines, and make it peculiar to itself. It acts directly and positively upon the blood, and as the blood reaches every nook and corner of the human system, all the nerves, muscles, bones and tissues come under the beneficial influence of

Cheney. Prominent speakers will be present and address the people, but politics will be wholly ignored. The meeting will be conducted solely with a view to make all present feel that they are the guests of the old soldiers. Reminiscences of the days of camp and field will be told by those who took part in the struggle for freedom. Get ready, boys, bring your wives, your sons and your daughters, and once more stand shoulder to shoulder, drink from the same canteen—pure, sparkling water—and once more renew the friendships that bound comrades together in loyalty to flag and country thirty years ago.

FLAG POLE IS NOW UP

Masonic Home Has a New Flag and Making Great Arrangements.

Old Glory will be swinging daily to the breeze from a new steel flag pole at the Masonic Home hereafter.

The largest and finest flag in Kansas has been purchased by the Masons to be used at the home. A new steel pole was erected yesterday in front of the building.

The street car company have repaired their track and everything is being placed in readiness for the dedication next Thursday.

The lawn has been mowed and the last finishing touches have been given to the building and grounds.

The ladies of the Eastern Star have leased the mammoth tent and will be prepared to furnish delicacies and refreshments to the visitors at the grounds.

Cars will run all day Thursday on a ten minute schedule, and ample car facilities will be furnished. It is expected that there will be 10,000 visiting Masons throughout the state and Oklahoma present that day, and merchants and residents will be decorated.

Major W. W. issue his proclamation calling upon citizens to decorate and requesting business houses to close from 1 to 4 on the afternoon of Thursday.

The dedication services will be held at 2 o'clock and the parade will form at 1 o'clock. It will be a red letter day for Wichita and the 18th day of September, 1896, will not soon be forgotten.

PARTING

The pang of death I know, I feel, yet no transition see. Shall immortality reveal a truer life to me?

All truth and hope the yearning heart tells in the tender glance. The lingering hand, the tears that start—A soul unveiled by chance.

Should I no greater transport know Than I've known here so well? In parting I have learned of heaven, And all I know of hell.
